

UST has been working closely with SAP and SAP Public Services for more than a decade, during which we have partnered on multiple projects both in the Public Sector as well as the Private industries. Due to our extensive knowledge and expertise in SAP products and services, SAP has recognized UST making us a business Partner, for both software and services.

SAP Consulting Service Partner

As a SAP Service Partner, UST provides a variety of consulting services to our customers - helping them in business analysis, design, implementation, system integration and support.

SAP Application Partner

UST is a SAP Application Partner - in the Mobility and Integration domains.

SAP PartnerEdge Open Ecosystem Partner

UST participates in the SAP Open Ecosystem Partner Program

The combination of SAP's world class software with UST's proven implementation services is a compelling value proposition, helping customers get the best return on their money.
